

Terms of Service

Effective August 31, 2026

1. Acceptance of these Terms

By creating a Quantex account or using any part of the Quantex service, you agree to these Terms of Service. If you do not agree, do not create an account or use the service.

2. What Quantex Is

Quantex is a custodial crypto broker. You deposit crypto into a Quantex-controlled wallet, and Quantex holds it on your behalf in a single pooled master Binance account. From there you can trade spot markets yourself, or deploy an automated bot (Grid, DCA, or Momentum) that trades on your behalf within the parameters you set. Quantex is not a bank or investment advisor, and nothing on this site or in the app is investment advice.

3. Eligibility

You must be at least 18 years old to use Quantex. You are responsible for confirming that using a crypto trading platform is lawful where you live before you sign up.

4. Your Account

You can register with an email and password or with Google sign-in. You are responsible for keeping your login credentials secure and for all activity that happens under your account.

5. Identity Verification (KYC)

Depositing, creating a bot, and trading do not require identity verification. Before your first withdrawal, you will be asked to submit a government-issued ID (front and back) and a selfie. Submissions are reviewed manually; Quantex aims to review within a few business days but does not guarantee a specific turnaround time. Quantex may reject a submission or ask for a resubmission if it is unclear or does not appear genuine.

6. Risk Disclosure

Cryptocurrency prices are volatile. Trading, whether done by you manually or by an automated bot, can result in the loss of some or all of the funds involved. Past performance of any strategy, including Grid, DCA, and Momentum bots, is not a guarantee of future results. Quantex does not guarantee a profit or protect against loss. You should only deposit funds you can afford to put at risk.

7. Fees

Certain actions on Quantex, such as withdrawals, may carry a fee. Current fees are shown in the app at the time you take the relevant action, and may change over time.

8. Custody and Execution

Deposits are pooled and traded from a single master Binance account under Quantex's control. Your in-app balance reflects your share of that pool, tracked internally as an append-only ledger. The API keys Quantex uses to trade on Binance are configured for trading only and never carry withdrawal permission on that account.

9. Prohibited Uses

You agree not to use Quantex for money laundering, terrorist financing, market manipulation, or any other illegal activity, and not to attempt to circumvent identity verification or interfere with the platform's operation.

10. Suspension and Termination

Quantex may suspend or close an account that violates these Terms, including a KYC submission that appears fraudulent. Quantex will make reasonable efforts to return any remaining balance to a suspended account holder, subject to completing identity verification.

11. Service Provided As Is

Quantex is provided on an "as is" and "as available" basis, without warranties of any kind. To the maximum extent permitted by law, Quantex is not liable for indirect, incidental, or consequential damages arising from your use of the service, including trading losses.

12. Changes to These Terms

Quantex may update these Terms from time to time. Continuing to use the service after an update means you accept the revised Terms.

13. Contact

Questions about these Terms can be sent to support@onquantex.com.
